

CAMELIA DIFI

Freelance Full-Stack, Mobile & Cloud Developer

Lyon, France | cameliadifi0707@gmail.com | 0769302639 | camelia-difi.com

PROFILE

Freelance full-stack and mobile developer specializing in cloud, based in Lyon. I design and deliver web applications and websites for small businesses, from mockup to deployment, with React, Python/FastAPI, PHP and Docker, focusing on clean interfaces and measurable impact.

TECHNICAL SKILLS

Front-end: React, Vite, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive Design, PWA
Back-end & Data: Python (FastAPI, SQLAlchemy), PHP, REST, WebSocket, PostgreSQL, PostGIS
Cloud & DevOps: Docker, Docker Compose, Nginx (reverse proxy), PHP-FPM, multi-container architecture
Integrations: WhatsApp booking, Google Maps, Leaflet, open data APIs, PDF generation, multilingual UI (5 languages)

FREELANCE EXPERIENCE (2024 – PRESENT)

- HAKOWAY – Fuel Price Comparison App** | *Personal project*

2026

- Real-time fuel price PWA (mobile-first) using the French government's open data API; React/Vite/Tailwind front-end, FastAPI back-end, PostgreSQL/PostGIS geolocation.
 - Helps users find the cheapest fuel nearby, saving up to 15% on fuel spending.

Tech: React, Vite, Tailwind CSS, FastAPI, Python, Leaflet, PostgreSQL, PostGIS, SQLAlchemy, WebSocket
- 11A Travels – Multilingual Website** | *Tourism & transport agency, Sri Lanka*

2026

- Responsive site in 5 languages with dynamic destination pages and a WhatsApp contact and booking system.
 - Improved the agency's online visibility and simplified transport and booking requests.

Tech: HTML, CSS, JavaScript, Responsive Design
- Wild Crocodile Adventure – Website** | *Tourist excursions, Sri Lanka*

2026

- Multilingual site with photo gallery, Google Maps and WhatsApp booking (form on mobile, QR code on desktop).
 - Increased online visibility and streamlined the reservation process.

Tech: HTML, CSS, JavaScript, Google Maps, Responsive Design
- MFR Law Firm – Website** | *Legal services*

2026

- Modern, conversion-oriented site presenting the firm's expertise, values and contact options, designed to reassure visitors.
 - Strengthened the firm's online presence and professional image.

Tech: React, Vite, JavaScript, CSS, Responsive Design
- Invoicing Platform – Auto Repair Garage** | *Automotive*

2024

- Web app with dynamic invoice calculation, client-side form validation and PDF generation for printing.
 - Fully automated invoicing, cutting preparation time by 90%.

Tech: HTML5, CSS3, JavaScript
- Les Inspirations d'Oumy – E-Commerce Store** | *Handmade products retailer*

2024

- PHP online store on a multi-container Docker setup: Nginx reverse proxy, PHP-FPM and PostgreSQL.
 - Delivered a modern, scalable architecture with simplified deployment.

Tech: PHP, Docker, Docker Compose, Nginx, PostgreSQL

EDUCATION

- MSc, Cloud specialization** | *Epitech Lyon* | *Work-study at Thales*

2026 – 2028
- BUT Informatique** | *IUT de Valence*

2023 – 2026

- 2nd year: internship at Decathlon Digital, Algiers | 3rd year: work-study at IPM France, Romans-sur-Isère
